

Perspectives 2040 - Greene County Future Land Use Plan Update

Opportunity Places Exercise Results

Greene County is full of opportunity. Opportunity to develop, preserve, expand, sustain, and so much more. Where are these locations in Greene County?

In order to answer that question, we asked the Steering Committee to identify opportunity areas in Greene County. Opportunity places are those locations that could be improved or made better in the future. They may include areas that show potential, places where growth is desired, and so on. This map shows the results from the exercise. The comments are examples of comments received from the Steering Committee about the locations.

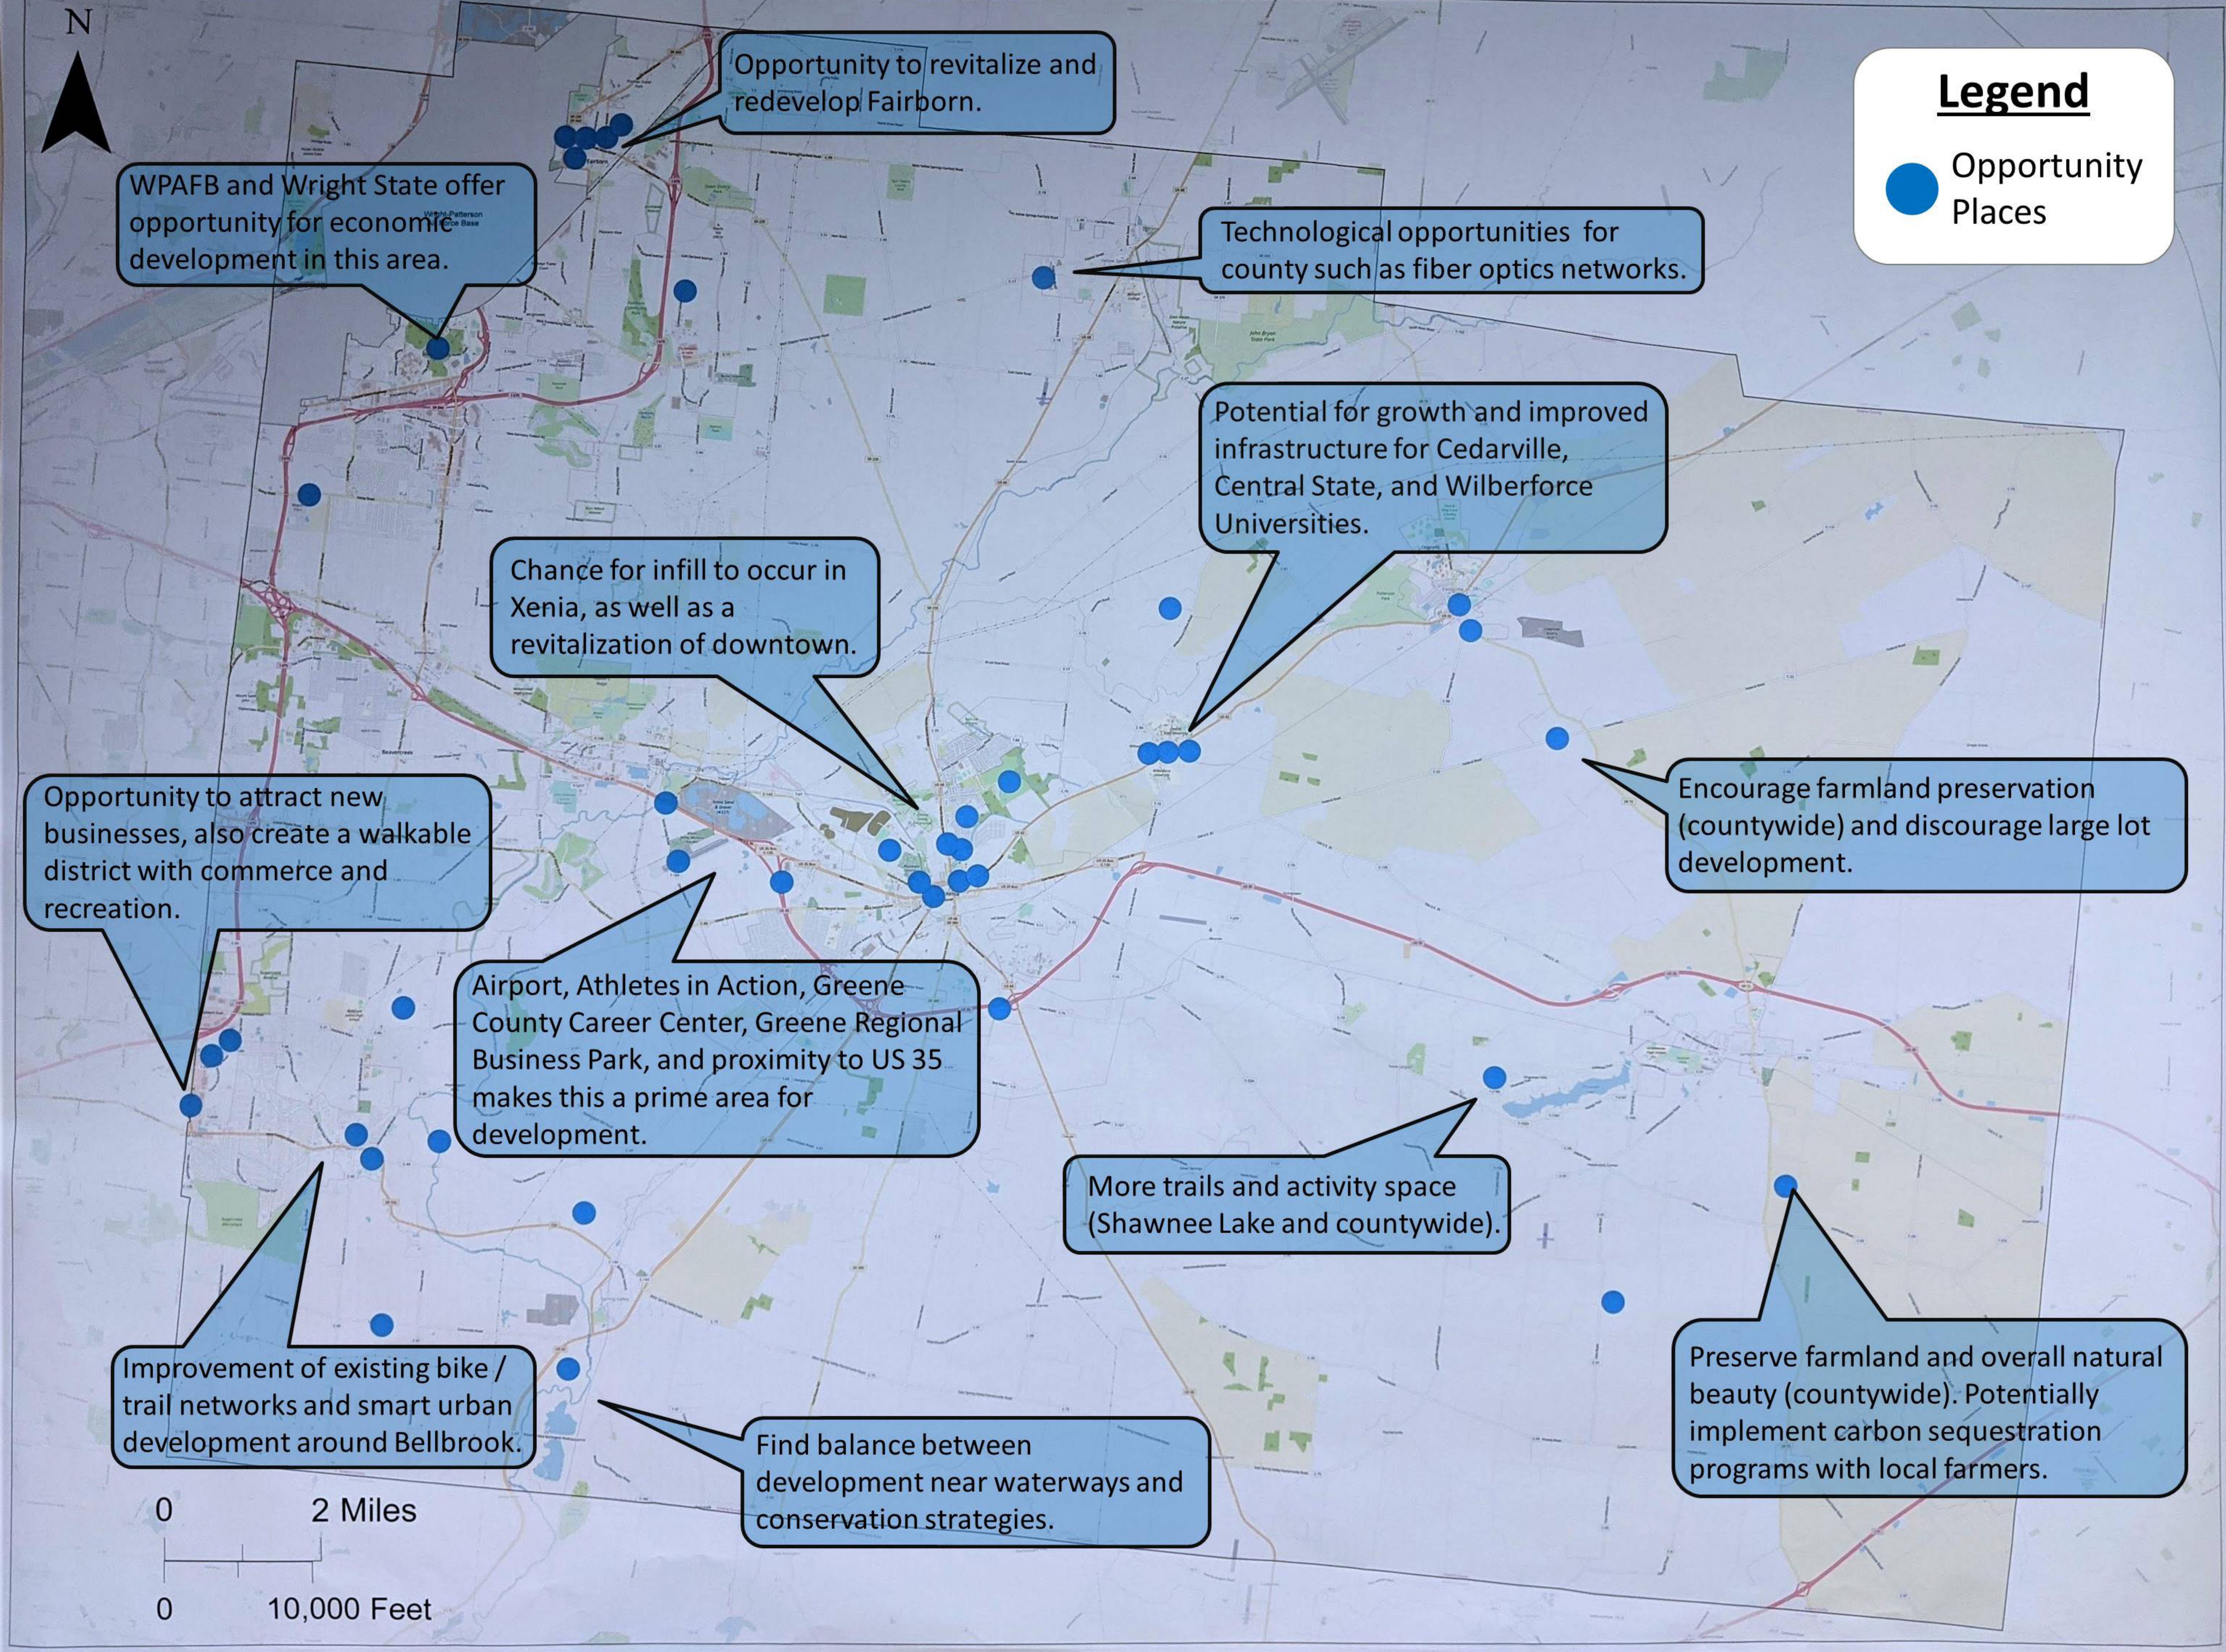

Steering Committee members participating in the opportunity places exercise.

Patterns Emerge

During the exercise with the Steering Committee several patterns began to emerge. The Steering Committee members agreed that there are a few locations and ideas that could provide opportunities for Greene County. Some of those locations and ideas are:

- Downtown redevelopment particularly in Fairborn and Xenia
- Preservation of farmland
- Improved trail and recreation areas
- Increase in attractiveness for business and industry

This is what the Steering Committee thought, what are your ideas? Take a map and tell us what you think.
